所给是一幅柱状图，清晰展示了 2000 年到 2008 年发展中国家和发达国家手机订购量之间的显著差异。在此期间，发达国家的购买数量表现出小幅上涨，从 6 亿到 9 亿。此后，数据在 2007 年和 2008 年稳定在 10 亿。相比之下，发展中国家手机销量在 2000 年仅为 5 亿，然后该数据迅速飙升，并在 2008 年达到了 40 亿的最高值。

上述数据，显然，能被联系到全球手机行业的迅速发展。但是什么导致以上差异呢？在我看来，至少两个根本原因可以解释这种现象。一方面，近年来，发展中国家的突出特征就在于其经济的蓬勃发展，这使得当地居民有额外的钱来买手机和用手机。一个典型例子就是中国。另一方面，与发展中国家相比，由于其人口规模小，发达国家享有的市场较小。所以，发达国家的市场表现出了饱和的趋势。

因此，手机制造商应更多关注发展中国家的市场。此外，他们应制定综合性策略巩固发达国家的市场。如果他们能尽全力这样来做，手机产业的明天将一片光明。

2008、2009 年国内轿车市场部分【品牌份额示意图】

课堂练笔：

首段：

① 所给的是/这是一个柱状图，清晰展示了 2008 年和 2009 年的中国、日本和美国汽车品牌在中国市场的份额方面明显的显著变化/对比。

Given/This/It/There/Provided/Presented is a column chart, clearly illustrating/showing/displaying/presenting the remarkable contrasts in China's market shares/percentages/proportions among Chinese, Japanese and car brands from 2008 to 2009.

②在此期间，中国品牌的份额表现出明显增长，从 25%增至大约 33%。

During this/the year, the proportion/share of Chinese brands showed an evident/sharp/striking growth, from 25% to approximately/about/nearly/almost/roughly 33%.

③相反之下，日本汽车的占比表现出明显下降，从 35%跌至 25%。同时，美系品牌的份额保持稳定在 15%

By contrast, the share of Japanese cars decreased/descended/declined/fell sharply, from the peak of. Meanwhile, the percentage of American brands maintained/remained stable at 15%.

二段：

①这些数据，显然，能被联系到中国汽车市场的激烈竞争，但是什么导致了上述差异？

Such statistics, apparently, can be associated with the fierce/intense/tough/stiff/severe competition in China's car/automobile market, but what resulted in the differences above?

②一方面，近些年来，中国汽车的突出特征直都是更低的价格和提升的质量，这使得或吸引了越来越多的中国消费者选择自己的民族品牌。一个典型例子就是“我们家”。

For one thing, in recent years, Chinese automobiles have been characterized by the lower prices and improved quality, which enabled or attracted an increasing number of/a growing number of Chinese customers/consumers/buyers/people to choose their own national brands. My family was a case in point.

③另一方面，与过去相比，中国和日本的关系变得更加糟糕。因此，很多中国消费者不再购买包括汽车在内的各种日本产品。

For another, compared with the past years, the relationship between China and Japan (Sino- Japan relation) became worse (more terrible). So, a larger proportion of Chinese people (citizens /residents) did not buy various Japanese products (goods/items/commodities), including cars.

④因此，日系品牌汽车在中国销量就下降了。

精讲 2：高校学生兼职（13 年）

Directions: Write a short essay based on the following chart. In your writing, you should:
1) interpret the chart and

You should write about 150 words.

某高校学生兼职情况

参考范文：

This is a column chart, clearly illustrating the striking contrasts in part-time jobs by college students in a certain university. Overall, seniors have the largest proportion of part-time jobs, with 88.24%. Then, the next are juniors and sophomores, at 71.93% and 71.13% respectively. Finally come freshmen, with 67.77%. It is also noticeable that over half of students in four grades take part-time jobs.

Such statistics can be associated with the popularity of leisure-time jobs among youngsters in college, but what result in this phenomenon? For one thing, college life is characterized by two long vacations—summer and winter vacations, which enable students in college to have adequate spare time to broaden their horizons and gain additional income by doing part-time jobs. For another, compared with students in lower grades, seniors possess richer professional knowledge, greater demand for working experience and less courses. So, a larger percentage of them take part-time positions.

尾段 1:

University authorities are supposed to provide certain support and guidance for students on how to find and do part-time jobs well. Meanwhile, it is essential for college students to work out comprehensive strategies to balance their academic pursuit and spare time work.

结尾 2：

这是一幅柱状图，清晰展示了某高校大学生在兼职工作方面的显著差异。总体上，大四学生拥有最高的兼职比例，达到了 88.24%；紧随其后的是大三和大二学生，分别是 71.93%和 71.13%；排在最后的是大一学生，67.77%。同样明显的是四个年级一半以上的学生有兼职工作。

上述数据能使人联想到兼职工作在大学生之中的普遍性，但是什么导致了这种现象呢？一方面，暑寒暑假这两个长假是大学生活的一个突出特征，这使得大学里的年轻人有足够时间做兼职工作，进而拓宽视野并获得额外的收入。另一方面，较低年级的学生相比，大四同学拥有更丰富的专业知识，对工作经验的需求更强烈，同时拥有更多自由时间。因此，他们之中更大一部分人做兼职。

（结尾 1）大学的管理者应在如何找兼职工作和如何做好兼职工作方面给学生提供支持和指导。同时，大学生也应制定出综合策略来平衡自身的学业和兼职。

（结尾 2）作为一个成年学生，我认为，我们有必要做兼职，这将带给我们了解社会的契机，唤起我们对生活的热爱，有助于减轻我们的经济负担。

As a youngster, I am fond of traveling during the Spring Festival holidays, which can bring me opportunities to taste various delicious food(s), inspire my passion for different cultures in different places, and help me broaden my horizons.

参考范文：

Given is a pie chart that clearly illustrates the striking contrasts in residents' expense during Spring Festival holidays in a certain city of China. The spending on new-year gifts is the largest proportion, which accounts for 40%, followed by transportation and gathering dinners, with the same 20%. Finally comes the total expenditure on other items, at 20%.

We, as Chinese, know the importance of Spring Festival in China. Then, what result in the differences above? For one thing, Spring Festival vacations are best characterized by the fact that during this period, Chinese usually give presents and express wishes to their family members, relatives and friends. This definitely enables the New-Year gifts to be the largest part of spending. For another, compared with the past, more youngsters do not work or study in their hometowns. However, they choose to go back home to celebrate the Spring Festival together with their parents or friends by gathering dinners. So, transportation and gathering dinners constitute a certain percentage of their expenditure.

Accordingly, Chinese are well-advised to preserve our traditional ways of celebrating the festival, like giving presents, gatherings and so forth. Whether the proportion of each section is rational or not, it is essential to enjoy the joyful atmosphere of the New Year.

所给是一幅柱状图，清晰展示了中国某城市居民春节消费方面的对比。新年礼物是最大的比重，达到了 40%，紧随其后的是交通和聚餐，均占比 20%。最后是其他项目花费的总和，占 20%。（公众号：学长小谭考研）

作为中国人，我们都知道春节在中国的重要性。那么，是什么导致了上述差异？一方面，春节假期的特点在于中国人通常会在此期间给家人和亲朋好友送礼物来表达祝福。这必然使得礼物成为最大的花销。此外，与以前相比，更多年轻人不在家乡求学或工作，但是他们选择回家跟父母和朋友一起聚餐过年。因此，一部分钱花在交通和餐费上。

因此，我认为我们中国人应该保持传统的庆祝纯洁方式，例如送礼物、聚会。无论每个部分的花销是否理性，重要的是人们享受了新年的喜庆氛围。

Accordingly, governments at all levels are supposed to work out comprehensive strategies to shorten the gap between rural and urban areas. Meanwhile, it is advisable for them to focus more on various problems caused by population expansion in cities, such as explosion traffic congestion, environmental pollution, and the increase/rise of housing price.

参考范文：

Given is a column chart that clearly illustrates the striking contrasts in populations between urban and rural areas of China from 1990 to 2010.During these two decades, the rural population descended dramatically, from its peak at approximately 820 million to 660 million. By contrast, the number of urban residents showed a sharp rise, from 300million to a little more than 660 million.

Such statistics can be associated with the rapid urbanization of China, but what resulted in these differences? To my understanding, at least two fundamental causes can ac-count for this phenomenon. For one thing, in recent years, China was best characterized by its economic boom and its policy in controlling population, which enabled more families in the countryside to have only one kid and some rich families move to cities. For an-other, compared with rural areas, cities enjoy superior educational resources, medical care, employment and other public services. Therefore, cities attract more people to re-side, especially college graduates.

Of course, the authorities are supposed to focus more eyesight on the problems caused by population expansion in cities. Meanwhile, it is essential to workout comprehensive strategies to shorten the gap between urban and rural areas.（公众号：学长小谭考研）

在这二十年中，乡村人口平稳下降，从高峰值约 8.2 亿降至 6.6 亿。相比而言，城市居民数量表现出较为明显的增长，从 3 亿增长至略高于 6.6 亿.

这种情景自然而然能自然联系到中国快速的城镇化，但是什么导致了这些差异？在我看来，至少两个原因可以解释这种现象。一方面，近些年，中国的突出特征在于其经济的飞速发展和人口控制政策，这使得更多农村家庭只有一个孩子而且一些富裕家庭搬往城市。另一方面，与乡村相比，城镇享有更优越的教育资源、医疗服务、就业和其他公共服务。因此，城市吸引了更多人定居，尤其是大学毕业生。（整理自：学长小谭）

当然，政府应该更多关注城市人口膨胀带来的诸多问题。同时，有必要制定综合策略去缩小城乡差距。

At least three causes can be responsible for these differences. Firstly, college students are best characterized by their strong curiosity for the mysterious nature, which enables them to choose traveling as an approach to enjoy and explore the natural beauty. Secondly, compared with other tourists, youngsters in college usually suffer more burdens in academic study and traveling is an idealistic way to release stress. Finally, traveling frequently brings them opportunities to know more people, arouses their enthusiasm for the outside world and helps them to cultivate independence.

For another, compared with the past, people get wealthier and it is natural that the price is not their major concern any more.

这是一个柱状图，清晰展示了某高校 2013 年和 2018 年本科毕业生去向方面的明显差异。在这段时间内，就业的毕业生比例明显下降，从 68.1%降到 60.7%。然而，选择升学的毕业生比例明显上升，从 26.3%增长到 34%。同时，创业的毕业生比例从 1.3%增长到了 2.6%。

是什么导致了上述变化呢？一方面，大学毕业生的特征就在于他们已经是成年人，需要工作来独立养活自己。这使得他们之中的大多数人毕业后去找工作。另一方面，与过去相比，就业市场的竞争更激烈，同时政府鼓励更多年轻人去进一步学术深造或创业。

作为一名大学生，我正在准备研究生入学考试。我相信研究生学习会带给我更好的就业机会，唤起我对学术研究的热情，帮助我拓宽视野。

参考范文：

This is a column chart, which clearly illustrates the striking changes in business volume of express delivery in China from 2018 to 2020. The total volume ascended remarkably, from 51 billion yuan in 2018 to 83 billion yuan in 2020. Meanwhile, the volume in rural areas showed a sharp increase, from 12 billion yuan to 30 billion yuan.

Such statistics, apparently, can be associated with the growing popularity of courier service in China. There are two reasons accounting for this phenomenon. For one thing, China, in recent years, was characterized by the boom and prosperity in economy, which enabled residents, including people in the countryside, to possess additional money to shop. For another, compared with the past years, more customers chose shopping online and thus, an increasing number of items and parcels were delivered to buyers.

As a senior who is preparing for the national entrance examination for postgraduate studies, I am busy with my academic pursuit and so I purchase books, clothes, shoes and cosmetics from the Internet. I deem that the service of SF is the best.

显然，上述统计数据能让我们联想到中国快递服务的日益普及。有两个原因可解释这种现象。一方面，近年来，中国的经济繁荣，这使得包括农村居民在内的人们能够拥有更多钱购物。另一方面，与过去几年相比，更多的顾客选择在线购物，因此，越来越多的商品和包裹被快递给买家。

作为一名正在准备研究生入学考试的大四学生，我忙于学业，因此选择从互联网上购买书籍、衣服、鞋子和化妆品。我认为 SF 的服务是最好的。
